

## Introduction

Between the years of 1850 and 1868, almost Ten Thousand Convicts were transported to Western Australia, aboard Forty-three Vessels.

By order of the Home Government, the Surgeon Superintendent on board each vessel was required to keep an accurate account of all events which took place during the voyage.

This, the Journal of William Crawford M.D., Staff Surgeon R.N., Surgeon Superintendent, records the events which took place each day on board the Convict Ship "Clyde", which, with its most valuable cargo of Male Convicts, made passage from England to Western Australia in the year of 1863.

Yesterday evening between 6 & a quarter past, I was quietly standing on the port side of the Poop, without speaking to any person. Whilst there I observed Mrs. Lane, wife of Warder Lane, moving along. I stepped on one side to make way for her when she rubbed her dress up against me in a most insulting manner & said that the people on board here were savages. I never spoke a word but looked round &

observed the Chief Officer in my vicinity. Soon after that I went below to the cuddy and found Mr. Bothell, the said Chief Officer, in conversation with Mr. Rosser, the Religious Instructor, commenting on the way in which Mrs. Lane had insulted the Surgeon Superintendent. During the past week, the noise & altercation which has been going on between her children & her two sons has been most difficult to put up with. Her husband informs me that he has no control over her whatever and she puts all authority of defiance. I have given orders to the Guard that Mrs. Lane is not to be allowed on the Poop again.

3 P.M. In consequence of Mrs. Lanes boisterous conduct & her continuing to quarrel with her children, the Surgeon Superintendent has thought fit, as there is no sickness in the Ship or signs of the same, to remove Warder Lane, his wife & family into the Military Hospital, which accommodation is far superior to that which they occupied before & at the same time to have the accommodation under the Poop reserved for the Guard in the event of sickness &c.

Last night at 8 o'clock, prior to the Rounds, a few men were disaffected & refused to go to bed when the Warder, Mr. Woodman, told them to do so. One man especially named Thos. Tomlinson of 21 Mess refused to go to bed & said he would never take his clothes off again all the voyage. He also said he was starved with hunger & cold. I may note that this man has had extra rations of barley & tea during the voyage in consequence of having lost some of his teeth, he is, in my opinion, a great ruffian & a prisoner who would endeavour to get up great disaffection in the Ship. A man more over who boasts that he has no belief & reliance on a God & denies any responsibility or allegiance to a Divine being - put in irons & placed in the Black Box, being allowed one hour for exercise, which will be repeated every day.

The weather being very severe & blowing heavily, the Ship at the time being under a great pressure of canvas & rolling in on the Prison deck large volumes of water & most of the weather cabins on the cuddy being afloat, I decided it expedient to give a written memorandum to the Master, a copy of which is appended below.

MEMORANDUM

In consequence of the apparent severity of the weather, which may continue in these Latitudes, I have to request you will carry sails with moderation & discretion, as a large press of canvas immerses a ship & causes her to take in volumes of water, consequently saturating bedding &c, thereby causing disease to occur amongst large masses of people, whose health I am responsible for & to which Her Majesty's Government look to me to have carried out. By taking a little precaution of this in earnest, it may prevent a vessel of this kind having to call at the Cape & land her living cargo with credit which will be not only for the sake of humanity, but also for the benefit of your (seamen ?).

During the voyage there has been great difference of opinion between the Warders and the Captain concerning their provisions. During the passage from England, the Surgeon Superintendent has permitted the Guard, as long as they did their duty properly, to wear such clothing as appeared most comfortable to them, and suitable to the different changes of temperature, however on nearing Fremantle he ordered the Sergt. Major to acquaint the men that they must appear in proper uniform with their beards properly shaved according to Military Regulations in order that they present a respectable appearance for the Commandant upon his arrival on board. One man - a non Commissioned Officer, that is to say, Corporal Ireland, appeared with a large beard & moustache & being questioned by me as to the cause, he stated it was in consequence of sore throat & having had inflammation of the lungs. I carefully examined his throat & chest & found not a shadow of reason for supposing so. I then asked him if he wished to leave the Pensioner Guard on arrival in the Colony & he said he did. I then told him I would permit him to wear it on his signing a document in the Government Journal, for the information of the Commandant, on arrival at Fremantle.

I, Corporal Richard Ireland, certify that is my desire to leave the Pensioner Guard on arrival at Fremantle & do not wish to shave myself.
